

Green Star – Design & As Built Submission Template

Ensure all prompts shown in **Blue text** have been responded to.

Design Review / As Built Submission [Delete as appropriate]

Credit: MAN Commitment to Performance

Project Name: [name]

Project Number: GS- [####]

Points available: 3

Points claimed: [1 to 3]

Commitment to Performance

The project team has committed to set targets, measure and monitor environmental performance in the following ways: [Please select the applicable initiatives utilised in project]

Criterion		Points available	Points claimed
1 Environmental Building Performance	There is a commitment to set targets and measure results for environmental performance.	2	
2 End of Life Waste Performance	There is a commitment to set targets and measure results that minimise construction waste from end of life of interior fitouts or other building attributes.	1	
3 Sustainable Procurement Performance	A Sustainable Procurement Framework is used to set commitment targets and measure results for consumables.	1	

[Please enter the number of points claimed for each criterion, 0 if no points are being claimed]

1 Environmental Building Performance

The project team [\[has/has not\]](#) formally committed to set targets and measure results for environmental performance to demonstrate compliance with this requirement.

The project team has committed to set targets, measure and monitor environmental building performance in the following ways: [\[Project teams are to select the option\(s\) they have chosen to address. Please fill out the applicable initiatives utilised in project\]](#)

	Issue addressed	% Nominated Area	Points claimed
1a Building Owner and Building Occupant Joint Commitment	1.1 Greenhouse Gas Emissions		
	1.2 Potable Water		
	1.3 Operational Waste		
	1.4 Issues affecting Indoor Environment Quality		
	Sub-Totals		
	Issue addressed	% Nominated Area	Points claimed
1b Building Owner Commitment	1.1 Greenhouse Gas Emissions		
	1.2 Potable Water		
	1.3 Operational Waste		
	1.4 Issues affecting Indoor Environment Quality		
	Sub-Totals		
Totals			

[\[Please insert hyperlink to documents that support these claims\]](#)

2 End of Life Waste Performance

The project team [\[has/has not\]](#) formally committed to set targets and measure results for construction and demolition waste at the end of life

The project team has committed to set targets, measure and monitor end of life waste performance in the following ways: [\[Project teams are to select the option\(s\) they have chosen to address. Please fill out the applicable initiatives utilised in project\]](#)

	Initiative	% Nominated Area	Points claimed
1a Building Owner and Building Occupant Joint Commitment	Best practice 'make good' clause		
	[Other]		
	Initiative	% Nominated Area	Points claimed
1b Building Owner Commitment	Furniture, Fittings and Equipment (FFE) Quality standards policy		
	Strategic asset management plan, incorporating whole-of-life management		
	Provisions for FFE to be donated to charity or sold on for reuse		
	[Other]		
Totals			

[\[Please insert hyperlink to documents that support these claims\]](#)

3 Sustainable Procurement Framework

The project team [has/has not] formally committed to set targets and measure results for construction and demolition waste at the end of life

The project team has committed to set targets, measure and monitor purchasing and procurement in the following ways: [Project teams are to select the option(s) they have chosen to address. Please fill out the applicable initiatives utilised in project]

	Framework	% Nominated Area	Points claimed
1a Building Owner and Building Occupant Joint Commitment	Australia New Zealand Government Framework for Sustainable Procurement		
	British Standard 8903:2010 Principles and framework for procuring sustainably		
	[Other]		
	Framework	% Nominated Area	Points claimed
1b Building Owner Commitment	Australia New Zealand Government Framework for Sustainable Procurement		
	British Standard 8903:2010 Principles and framework for procuring sustainably		
	[Other]		
Totals			

The project team [has/has not] used either of the recognised best practice sustainable procurement frameworks outlined in the credit criteria.

Where other sustainable procurement frameworks are used, the compliance requirements are met in the following ways:

Other Sustainable Procurement Frameworks

Best Practice Requirements	Project's Framework
Item 0: Developed by a third-party	
Item 1: Policy - This should include what sustainability means to the organisation. To ensure commitment at all levels, the organisation's policy should be supported by a sustainable procurement policy and a strategy statement.	
Item 2: Process - The procurement process is made up of several processes in order to ensure that environmental impacts of goods are minimised, determine materiality, consider environmental and social practices from suppliers, monitor ongoing performance, and review and update when and where needed.	
Item 3: Enabler - These include ways of working, competencies, practices and techniques that support the activities within the sustainable procurement process.	

[Please insert hyperlink to documents that support these claims]

Therefore as demonstrated in this short report, this project is eligible to achieve [1 to 3].
