Project Name: [name]

Project Number: GS- [####]

Points available: 12

Points claimed: [1 to 12]

Reduction in Potable Water Use – Modelled Performance

The project includes a number of water efficient features [Please describe the water efficient features of the building]

Building Occupancy, Areas and Operation

The project includes the following space types:

Space Type Description	Area (m ²)	Peak days of operation	Occupancy Profile	Maximum design occupancy (m ² /person)	Percentage of occupants who are staff in their primary workspace

[Please insert hyperlink to plans showing a mark-up of different space types to support these claims]

[Where a space does not use a standard occupancy profile, please include a copy of the occupancy profile used and a description of why it has been used in lieu of the standard profiles included in the calculator]

[Please insert hyperlink to documents that support these claims]

Sanitary Fixture Efficiency

The project is specifying the following fittings which will help it achieve reductions in potable water demand.

Item	Schedule Code	WELS Rating	Flowrate (L/min or L/flush)	Quantity of fixtures
[Toilet A]				
[Toilet B]				
[Urinal A]				
[Urinal B]				
[Shower A]				
[Shower B]				
[Tap A]				
[Tap B]				
Dishwasher [A]				
Washing machine [A]				

[Please insert hyperlink to documents that support these claims]

Therefore as demonstrated in this short report, this project is eligible to achieve [1 to 12] point for the reduction of potable water consumption by the building's occupants.

Heat Rejection System

[Provide a description of the heat rejection system.]

[Please insert hyperlink to documents that support these claims]

Discussion

[Insert any issues you would like to highlight and clarify to the Assessment Panel.]
