Sydney – Tuesday 27th of May

8.45am

Welcome from Romilly Madew, Chief Executive, GBCA

9.00am

The sustainability leader board – tips from the top

How do you become the world's most sustainable company? In 2014 Westpac topped the Global 100 Index as the world's most sustainable company, and four more GBCA members also made the list. This session will showcase industry leaders and the social, environmental and economic initiatives that earn you a spot at the top.

KEYNOTE

Emma Herd, Executive Director, Emissions & Environment, Westpac

SPEAKERS

Ramana James, National Sustainability Manager, Stockland
Dominic Ambriano, National Sustainability Manager, Property, AMP Capital

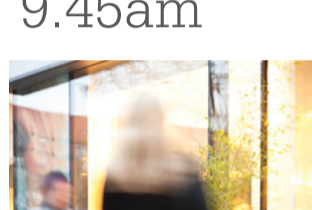

MODERATOR

Romilly Madew, Chief Executive, GBCA

LEARNING OUTCOMES

- ▶ Examine the definition of sustainability, how this has changed over the last decade and how it will continue to develop in the next decade.
- ▶ Understand how large commercial businesses think about sustainability, how they incorporate it in their business strategy and how it benefits business.

9.45am

By people for people – focus on social strategies

Buildings, communities and cities are built by people for people. Find out how investing in social strategies can improve the long-term viability of the property industry, while improving the lives of employees, local communities and the global community.

SPEAKERS

Amanda Steele, Head of Sustainability, Pacific, CBRE
Sue Wibliin, National Manager – Community Engagement, The GPT Group
Jorge Chapa, Executive Director for Green Star Development and Operations, GBCA

MODERATOR

Romilly Madew, Chief Executive, GBCA

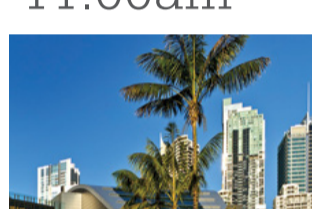

LEARNING OUTCOMES

- ▶ Discuss the future for social innovation in the property industry and the associated benefits for business and the community.
- ▶ Understand the meaning of 'shared value' and how to incorporate this into your business processes.
- ▶ Outline methods for community investment and social innovation relevant to the property industry.
- ▶ Outline how and why social innovation is incorporated in Green Star rating tools.

10.30am

Morning Tea

11.00am

Built behaviour – how place impacts participation

The built environment can have an enormous impact on the vitality of a community. Find out how designing neighbourhoods that encourage people to get out and get active is critical to reducing the strain on our health sector and the long-term health of our nation.

SPEAKERS

Peter McCue, Executive Officer, Premier's Council for Active Living
Robert Milagre, Director Green Star Development and Operations, GBCA

LEARNING OUTCOMES

- ▶ Outline trends in Australia that will impact on people's health and wellbeing and the implications for the health and property sectors.
- ▶ Understand the role that the built environment plays in influencing people's behaviour and lifestyle habits.
- ▶ Examine practical measures that can be taken to improve the walkability of an area and improve the health of a community.

11.40am

Policy perspective – understanding Direct Action

Join policy experts as they dig deep into the Direct Action Plan. Discover the policy's potential impacts to the property industry and how it can be used to achieve positive environmental outcomes.

SPEAKERS

Grant Parker, Partner, Sparke Helmore Lawyers
Charlie Thomas, National Policy Manager, Property Council of Australia

MODERATOR

Katy Dean, Director Advocacy, GBCA

LEARNING OUTCOMES

- ▶ Understand the government schemes available to support the property industry.
- ▶ Understand the current state of the Direct Action plan and the Emissions Reduction Fund and what the future outcomes may be.

12.15pm

Introducing Future Leaders

The GBCA launches its Future Green Leaders program for young professionals.

SPEAKERS

Michael Ianni, Manager Education & Events, GBCA

12.20pm

Lunch

1.20pm

Makeover not make-do – retrofitting our existing buildings

Australia's existing building stock presents an untapped opportunity to improve the performance of our built environment. Examine the challenges of retrofitting old and low-grade buildings and how to transform them into high-performance, healthy and sustainable places.

SPEAKERS

Alexandra Harrington, Chief Operating Officer, The Warren Centre
Phil Wilkinson, CEO, AIRAH
Matt Pontin, Director, EMF Griffiths

CASE STUDY: 20 MARTIN PLACE

LEARNING OUTCOMES

- ▶ Identify the areas where the biggest gains can be made in improving the performance of existing buildings through retrofitting and refurbishment.
- ▶ Understand the benefits of refurbishment for the owner and tenant.

2.05pm

Green Star update

Learn about the latest Green Star developments including opportunities for volume certification and Green Star packages, how refurbishment fits within Green Star and a Green Star 2014 update focused on the new Design & As Built rating tool.

SPEAKERS

Jorge Chapa, Executive Director for Green Star Development and Operations, GBCA

LEARNING OUTCOMES

- ▶ Gain an understanding of the changes to the Green Star rating tools and how these will be applicable to your business or project.

2.20pm

Out of Office – non-office case studies to diversify your thinking

Non-office buildings present unique challenges for sustainable design. Explore some creative case studies from Out of Office projects and how these ideas could be transferrable to you.

CASE STUDY: GLOBAL CHANGE INSTITUTE

Located on the historic St Lucia campus at the University of Queensland, the Global Change Institute is a leading research centre focused on addressing the challenges of global change. The bold \$32 million structure is a 'living building' that aims to work with the environment, rather than consume its resources.

SPEAKER: Anne Kovachevich, ESD Leader, Arup

CASE STUDY: HOPKINS STREET AFFORDABLE HOUSING DEVELOPMENT

Located in the heart of the working class suburb of Moonah, north of Hobart, the Hopkins Street Affordable Housing development is the first and only Green Star certified residential project in Tasmania. It is also the project that persuaded Housing Tasmania to toss out their existing housing specs in support of a paradigm shift in what social housing could and should be like.

SPEAKER: Peter Scott, Director, X Squared Architects

LEARNING OUTCOMES

- ▶ Examine examples of non-office projects that are pushing the boundaries in sustainable building design.
- ▶ Learn about the design and sustainability innovations/initiatives that could be applied to your future projects.

3.00pm

Afternoon Tea

3.30pm

Addicted to tech – changing the way we live, work and play

Technology is embedded into our personal and professional lives, but where will it take us over the next 10 years? Explore potential changes in the way we live, work and play driven by an increased use and dependency on technology.

SPEAKERS

Rachel Dixon, Director - Digital, KPMG
Richard Palmer, Associate Director – Built Ecology, WSP
Evan Harridge, Director, Immersive

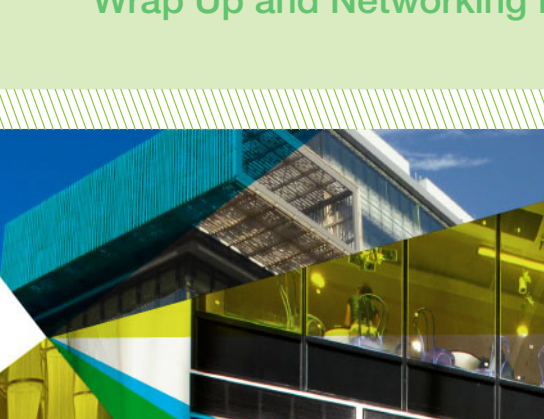

LEARNING OUTCOMES

- ▶ Appreciate the changes in the way we live, work and play due to our increased use and dependency on mobile technology.
- ▶ Examine how our use of technology will impact the way we interact with our cities, buildings and each other and the demands this will place on our infrastructure.
- ▶ Understand how Australia can establish a strong position in terms of attracting and maintaining a workforce of globally connected 'knowledge workers'.

4.30pm

Wrap Up and Networking Drinks
