

Green Star – As Built & Design Submission Template

Ensure all prompts shown in **Blue text** have been responded to.

Design Review / As Built Submission [Delete as appropriate]

Credit: IEQ- Reduced Exposure to Pollutants

Project Name: [name]

Project Number: GS-[#####]

Points available: 2

Points claimed: [1 or 2]

Reducing exposure to pollutants

The project has been designed to reduce exposure to pollutants in accordance with the following criteria:
[Please select the applicable initiatives utilised in project]

Credit Criteria	Description	Points available	Points claimed
1 Total VOCs	All paints meet the Total VOC Limits and/or;	1	<input type="checkbox"/>
	All adhesives and sealants meet the Total VOC Limits and/or;		<input type="checkbox"/>
	All carpets meet the Total VOC Limits		<input type="checkbox"/>
2 Formaldehyde	All engineered wood products meet the formaldehyde emission limits	1	<input type="checkbox"/>

[Please enter the number of points claimed for each criterion, 0 if no points are being claimed or N/A if the criterion is not applicable to the project]

1. Total VOCs

1.1 Paints

[Demonstrate compliance against one of the options]

- The project has not specified any paint to be applied internally
- The project has specified paint to be applied internally

The project design has specified that paint applied internally meet the TVOC Emissions Limits stipulated in the credit

Details of paints specified in the project are included below:

Paint	TVOC	TVOC limit	Compliant? [Y/N]

[Insert hyperlinks to documents which support these claims]

1.2 Adhesives and Sealants

1. The project has not specified any adhesives and sealants to be applied internally
2. The project has specified adhesives and sealants to be applied internally
3. The project has specified that adhesives and sealants applied internally meet the TVOC Emissions Limits stipulated in the credit

Details of adhesives and sealants specified in the project are included below:

Adhesive or sealant	TVOC	TVOC limit	Compliant? [Y/N]

[Insert hyperlinks to documents which support these claims]

1.3 Carpets

[Demonstrate compliance against one of the options]

1. The project has not specified any carpets to be applied
2. The project has specified carpets to be applied

Details of all carpet and flooring specified on the project are included below:

Carpet or flooring	TVOC	TVOC limit	Compliant? [Y/N]

[Insert hyperlinks to documents which support these claims]

Therefore, as demonstrated in section 1, this project is eligible to achieve 1 point for VOC compliant paints, adhesives and sealants and/or carpets.

2. Formaldehyde – Engineered Wood Products

[Demonstrate compliance against one of the options]

1. The project has not specified any engineered wood products
2. The project has specified engineered wood products

Details of all engineered wood products specified on the project are included below:

Engineered Wood Product	Formaldehyde Content	Emission Limit	Compliant? [Y/N]

[Insert hyperlinks to documents which support these claims]

Therefore, as demonstrated in section 2, this project is eligible to achieve 1 point for formaldehyde compliant engineered wood products.

Discussion

[Insert any issues you would like to highlight and clarify to the Assessment Panel.]
